

*Excellent value and quality
steel construction*

RIO II

Be a kid all over again and spend the whole day outside by your above ground pool. The **V6 Steel Series** gives you affordable summer fun in a superior steel frame with designs that blend quality, endurance and reliability. The entire steel structure is coated with a combination of protective finishes, ensuring maximum resistance to corrosion and providing optimum durability.

Your above ground pool has been designed to provide you with years of safe, family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely, you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations. © Copyright 2014
